Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall such day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each answer book. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to a paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so their answers will not be valued and their conduct will be reported to the Syndicate for disciplinary action.*

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, blotting pad, card board, manuscript, or paper of any description and from making use of any of those whether introduced into the room by themselves or by any one else; from communicating with or copying from each other, and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be summarily sent out of the room forthwith, and his conduct will be reported to the Registrar. Such a candidate stands the risk of having all his answer papers for the examination for which he has appeared rejected by the Syndicate and of being debarred from sitting for the University examinations for such period as the Syndicate may decide. 11. Particular attention is requested to the instructions, regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. When candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.

13. Candidates sitting for the examinations at the different centres should apply to the Chief Superintendent of the respective centre for their hall tickets.

14. *No college student will be allowed to select a centre for his examination other than that in which the college he studies is situated, except for satisfactory reasons and on the recommendation of the Principal of his college.*

15. *A candidate who underwent his course of study in an affiliated college but appears for the examination a second or a subsequent time, having failed previously, should also select the same centre in which the college he studied is situated, except under extraordinary circumstances.*

16. *Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendents of such centres as to their identity.*

DEPARTMENT OF AGRICULTURE.

INDIGO CROP OF 1929-30—SECOND OR FINAL REPORT.

[On an average of the five years ending 1928-29, the area under indigo in the Madras Presidency has represented 51·7 per cent of the total area under indigo in India.]

The area sown with indigo in the Madras Presidency up to the end of November 1930 is estimated at 45,800 acres against 49,000 acres at the corresponding date of last year, i.e., a decrease of about 10·5 per cent.

There has been an increase in area in Kurnool and Cuddapah which was more than set off by a reduction in area in most of the other districts, especially South Arcot.

2. Normal yields are reported except from Nellore.

3. Figures are not available about the quantity actually converted into dye or ploughed into wet lands as manure. But it is known that the crop is mostly used as green manure except in parts of Cuddapah where it is converted into dye. If the entire crop be converted into dye, the yield would work out to about 10,875 cwt. against 11,400 cwt. estimated at the corresponding date of last year.

CASTOR CROP OF 1930

(On an average of the five years ending 1928-29, the area under castor in the Madras Presidency has represented 22·8 per cent of the total area under castor in India.)

The area under castor in the Madras Presidency is estimated at 288 000 acres as compared with 237,300 acres, estimated on the same date last year or an increase of 21 per cent. Last year's estimate was about 7·4 per cent below the actually cultivated area of 256,200 acres.

2. The increase in area is marked in Anantapur where it rose from 33,700 acres to 70,000 acres.

3. The yield is expected to be normal against 96 per cent actuals in the previous year. On this basis, the yield is estimated at 30,100 tons as against 24,600 tons estimated in the corresponding date of last year and 26,030 tons estimated in the season and crop report of last year.

4. The wholesale price for castor seed ranges generally from 17 to 20 lb. per rupee. It is lowest in Tinnevelly, where it is sold at about 12 lb. per rupee.

5. Figures by districts are appended.

SUGARCANE CROP OF 1930

INTERMEDIATE MONTHLY REPORT.

Sugarcane in the low-lying areas of East Godavari, West Godavari, Guntur South Arcot, North Arcot, Chittoor, Trichinopoly, and Madura was affected by the heavy rains of October and November. The condition of the crop is fairly good in the other districts and normal yields are expected if there are no unseasonal rains at the time of harvest.

2. The wholesale price of jaggery per candy of 500 lb. is reported as Rs. 35 to 40 in Kistna, Guntur, Bellary, Nellore, South Arcot, North Arcot and Chittoor, Rs. 42 to 45 in Anantapur and Cuddapah, Rs. 40 to 60 in Kurnool and Salem, Rs. 45 to 50 in Trichinopoly, Rs. 45 to 60 in Madura, and Rs. 55 to 60 in Tinnevelly.

COTTON CROP OF 1930-31.—THIRD FORECAST REPORT.

(On an average of the five years ending 1928-29, the area under cotton in the Madras Presidency has represented 9·5 per cent of the total area under cotton in India)

The area sown with cotton up to the end of November 1930, is estimated at 1,779,500 acres as against 2,014,000 acres on the corresponding date of last year. There has been a decrease of about 11·6 per cent.

The reduction in area is general in all the important districts outside Tinnevelly, Cuddapah and Nellore and is due partly to the abnormal fall in the price of cotton and partly to the heavy rains which interfered with sowing.

The area under irrigated cotton, mainly Cambodia, is estimated at 90,800 acres against 171,600 acres last year, a decrease of about 42 per cent.

2. The condition of the crop is generally satisfactory. The seasonal factor for the Presidency works out to 100 per cent of the average against 98 per cent on the corresponding date of last year. On this basis, the total yield is estimated at 354,100 bales of 400 lb. lint against 413,600 bales of last year. This represents a decrease of about 15 per cent. The crop in the south is, however, young and it is too early to estimate its yield with any degree of accuracy.

3. The estimated area and yield under the several varieties are given below :—

Sale conditions.

1. Tenders should be at one rate per 1,000 shells for the full-sized and at a separate rate per 1,000 shells for the under-sized and wormed.

2. Each tender should be accompanied by a deposit of rupees one thousand (Rs. 1,000) only and will be received till noon of Monday, the 12th January 1931.

5. The successful tenderer should be prepared to accept delivery of the full quantity of shells fished in every season.

6. *Delivery*.—The shells shall be delivered at Tuticorin at the close of each fishing season which shall be 30th June for each season. If the buyer desires delivery prior to the close of the fishing season of a portion of the catch, endeavour will be made to meet his wishes upon payment in advance of the value of the portion to be delivered. But the successful tenderer may station his representative at Tuticorin. He will be given charge of one of the chank godowns which will be provided with double locks, one key of which will be in the custody of the representative and the other with the Assistant Director, Pearl and Chank Fisheries, Tuticorin, or his nominee. Interest at 8 per cent will be levied for all arrear sums calculated from the due dates. The Secretary of State shall be at liberty to recover the sum in arrear by suit or action at law instead of by re-sale of the shells.

If the shells are not removed within this period, rent at the rate of rupee one (Re. 1) only per day will be charged for the next one month, failing removal within this period a rental of rupees two (Rs. 2) only for each day thereafter for one month will be charged and rupees three (Rs. 3) only per day for any subsequent period.
